Lynn Kunzler  
State Of Utah  
Division of Oil, Gas & Mining

Dear Lynn,

As to our conversation last week concerning the closure of our Pine Springs Permit. I respectfully request that our permit remain open for the time being. We are planning on starting all the necessary permitting for the area, for next years season. I plan on visiting with you in the office sometime in early October to go over several things.

If there is anything else in the meantime that I can do, or help you with, please feel free to contact me at any time. Either at the numbers listed below for the Idaho Office, or 877-635-2600 for the Hurricane office. If no luck at either place, my cell # is 801-368-1308.

Thanks for your help and consideration in regards to this matter.

Sincerely,

Jeff Sagers
